Welcome to TOFUOL

The Perfect Combination of Science and Technology and Fashion

Comparable to the mobile phone screen
 2.5D glass edge treatmentSmooth and round, as smooth as a mobile phone

Damp Proof
 works even in humid conditions

Durability
 Tempered glass
 Resists deformation and fading
 Easy maintenance and cleaning

wifi Control

the traditional switch is fixed on the wall, can't be controlled by wifi control. Tofuol is controlled by intelligent switch, it's very convenient for you to operate.

Anti-oil and easy to clean up.

Traditional switches are with gaps, easy to be stained with oil. Tofuol is with simple plane design, anti-oil and easy to clean.

Overall flame retardant

The Tofuol is intelligent switch, with overall flame retardant and safety degree is higher.

Mobile phone frame

The frame uses Apple mobile phone material and craft, it's very high-end and suitable for various types of decoration style

0.1second touch response

The Tofuol is intelligent switch, with imported chip, rapid response, you can close it at any time.

Capacitive touch control

With the popularity of mobile terminals such as smartphones and tablets represented by iPhone and iPad, capacitive touch control has been deeply rooted in the hearts of the people. Capacitive touch control switch operation mode is quickly accepted by the market because of its sturdy, wearproof, durable, insulation, anti-dust waterproof, beautiful and novel appearance, which will undoubtedly become the most superior technical scheme of intelligent switch. In the near future, touch control switch will replace the traditional button switch to become the mainstream of the world.
